### Handheld announces the New Nautiz eTicket Pro

***The new Nautiz eTicket Pro®, is designed for transactions and ticket validations. It incorporates a smart card reader that complies with the latest e-ticketing requirements in public transportation.***

The Handheld Group introduced today the all new Nautiz eTicket Pro® rugged PDA with an integrated smart card reader. The built in reader complies with the latest e-ticketing requirements in public transport, supporting a broad range of contactless standards, including the entire Mifare® family.

The integrated smart card reader has been developed and designed by Arcontia, a leading supplier of smart card readers for the Public Transportation market. The reader is compliant with ISO 14443 A/B, ISO 18092 and also supports NFC for mobile applications, smart posters and tickets, including both passive reader mode and active peer to peer (P2P) mode.

The Nautiz eTicket Pro rugged PDA comes with an 806 MHz processor and advanced features such as integrated 3 mega-pixel camera with autofocus, integrated 2D imager, WLAN, Bluetooth, 3G cellular capabilities, and GPS. The operating system is Windows Mobile 6.1 and the product comes with 256 MB RAM and 512 MB built-in Flash storage. The Nautiz eTicket Pro has 3 integrated Secure Access Model (SAM) slots which can work in parallel, independently of each other, for extended performance. The rechargeable 4400 mAh Li-ion battery provides more than a full day's work on a single charge. The transfective VGA colour display and touch screen provide sharp and clear resolution even while working outdoors.

*"Public Transportation is an important vertical for Handheld and we have had growing success over the past 3 years. With the introduction of the Nautiz eTicket Pro and its superior reading capabilities we believe that we have the perfect solution for ticket validation. The combination of the state of the art technology that our partner Arcontia delivers and the Nautiz product is truly a match made in heaven,"* said Jerker Hellström, CEO of Handheld Group.

The Nautiz eTicket Pro is the latest addition to a portfolio of Handheld public transportation products including the M3 eTicket™ and Nautiz eTicket®.

The Nautiz eTicket will be on display at InnoTrans in Berlin, Germany 21-24 September and is available immediately.
