M3 Mobile

Slim and rugged

The M3 Mobile is a super slim rugged handheld computer that features numerous advanced integration options including barcode scanner, camera and GSM/EDGE. The rugged design of the M3 Mobile, together with the IP64 rated sealing ensures protection against dust, moisture and extreme temperatures, from -20 °C up to 50 °C. The M3 Mobile can handle drops of 1.5 meters to concrete across vast temperature ranges, meaning fewer repairs for you and reducing your total cost of ownership.

This flexible and light computer features advanced data capture options. With EDGE and GSM the M3 Mobile offers flexible voice and data communication. The M3 Mobile also has integrated Bluetooth and 802.11b/g wireless, which makes it easy to exchange data and synchronize with other devices.

The M3 Mobile runs on user-friendly Windows Mobile 5.0 operating system with a powerful Intel XScale PXA-270 520 MHz processor, a 128 MB SDRAM and 128 MB (expandable to 512 MB) of Flash storage.

An integrated high-quality laser scanner can easily read all common barcodes. The colour display includes a touchscreen and the ergonomic keypad is easy to use in tough environments, even with only one hand. To enhance your mobility, the M3 Mobile provides a slim hot-swappable battery. A desktop cradle charges the M3 Mobile plus spare battery and can also communicate through USB.

The M3 Mobile rugged PDA is the perfect handheld device for companies working in logistics, distribution, field services, warehousing and transportation. It is also suitable for applications like meter reading, parking and mobile citations.
